

Approved Test Centre Scheme Criteria

How do I join the Approved Test Centre Scheme?

The first step in joining Rigtalk's Approved Test Centre Scheme is to fill out the Contacts page details and forward them to Rigtalk to indicate your interest. We will be in touch within 24 hours to progress your enquiry.

Is registration to the Scheme free?

Yes it is! That's one of the unique selling points of the Rigtalk system. There is no registration fee and you are not tied into a complicated agreement.

How do I qualify as an Approved Test Centre?

In order to qualify you need:

- A reliable internet connection.
- An in-house administrator who is confident with IT and familiar with the Rigtalk system. Your administrator will also be responsible for verification of candidate identities, logging in candidates and getting them started on the Rigtalk system.
- A dedicated and quiet work zone.

Will you visit Approved Test Centres?

Yes – of course. We want you to feel that even though you are using an online resource that you have additional face-to-face support.

Do I need to buy a minimum number of tests per year?

Yes you do – but it's only 50. These 50 tests are to be used within 12 months of purchase.

Does an Approved Test Centre need to buy special software?

No you don't! That is the huge advantage of Rigtalk. As it is an on-line testing system run through a delivery platform, you don't need anything else – except of course a headset with microphone for each computer you intend to run Rigtalk on.

Does an Approved Test Centre have to buy Rigtalk coursebooks and CDs?

No you don't – another huge advantage of Rigtalk. All learning material is delivered online through our learning platform.
